

Logistics Management Inc Services

Incorporated in 1982, LMI provides freight cost containment services to manufacturers, distributors and associations. Hundreds of companies benefit from contractual freight rates with quality national and regional less-than-truckload and truckload carriers, efficient and accurate freight bill audit and payment services, convenient web-based rating and reporting tools and the transportation expertise of our highly trained staff.

Most of our customers choose LMI because they see immediate cost savings with our program. Customers continue with LMI because of our outstanding customer service, and additional value added services that we offer.

From our initial meeting with you, we listen carefully to your needs and cater a program to your company or group. You'll find that one or more of our products & services will be just what your business needs to improve its bottom line and increase efficiencies.

Please contact us for a complimentary base-line study of your freight costs. We would appreciate the opportunity to demonstrate the benefits of our program.
